

Mini Head Finish Circulation

CROSSING THE FINISH LINE (FIG. 1)

- Once past the Finish, **do not stop** – continue paddling past the Rowing Club and continue up to the far end of Ouse Valley Marina and stop just before the safety boat.
- Spin in front of the safety boat and head towards the Regatta Field side of the river.
- The crew at the head of the Mini Head division should paddle up level with the Regatta Field Race Monitor (wearing a hi-viz jacket) and await further instruction.
- All following crews should follow this pattern and join the queue on the Regatta Field side once spun.

RETURNING TO THE LANDING STAGE (FIG. 2)

- Once all crews in the Mini Head division have past the Finish, the Regatta Field Race Monitor will inform the first crew to head back to the landing stage. All other crews should follow suit.
- Crews should cross over the river just before they reach the upstream end (nearest the landing stage) of Ouse Valley Marina, then proceed to the landing stage.
